

Ecommerce_Product_Analytics_ Project

Executive Readout (Dashboard-
aligned)

What changed

- KPI names and definitions standardized to match the dashboard model.
- Excel analysis workbook created for governance + scenario modeling.
- SQL query pack created for repeatable KPI validation.

KPIs (as displayed)

- Total Revenue
- Total Orders
- Profit
- Profit Margin
- Viewed Customers
- Cart Customers
- Checkout Customers
- Purchased Customers

Recommendations

- Lock KPI glossary + signoff cadence.
- Automate refresh checks and exception reporting.
- Use the Scenario sheet to support leadership tradeoff decisions.

Success metrics

- Reduced reporting cycle time.
- Stakeholder adoption (weekly usage).
- Improved KPI outcomes aligned to dashboard.
